A New Era of Spiritual Awakening in South America: The Pure Waters of Heavenly South America United with Cheonshimwon

By Kim Dong-woo, Regional Director of Heavenly South America

Greetings to our beloved blessed families from around the world, In the wake of True Father's passing, True Mother entered a 40-day period of profound spiritual dedication. Her focus was on rejuvenating the faith of the Unification Movement and the substantial establishment of Cheon Il Guk. She emphasized the importance of the Cheonshimwon providence, urging the Family Federation to reconnect with its foundational values, closely aligned in spirit and truth with the True Parents.

In 2023, at the Cheonshimwon in Brazil, we took inspiration from True Mother's words, "Wonderful things occur when united with Cheonshimwon." Over a span of six months, both the first and second generations engaged in relentless witnessing and conducted a thousand prayer sessions. This devotion yielded a miraculous and remarkable outcome: an influx of over 2,400 new members into the Family Federation. This achievement underscores the transformative power of sincere prayers in manifesting the works of the Heavenly Parent and True Parents on Earth.

Our journey of miraculous events continued. Initially, the South American Youth Hyojeong 21-Day Workshop, scheduled for February 1-23 at the HJ Heaven and Earth CheonBo Training Center, was set to host 130 participants. However, buoyed by the strength of Cheonshimwon prayers, the attendance surged to 300. These young individuals are being trained as future leaders, aligning themselves with True Mother's teachings.

Since then, every day has been an enriching and unique experience for the South American branch of the Family Federation in Brazil. The Cheonshimwon providence has marked a rejuvenating beginning in the 12th year of Cheon Il Guk, unlocking a realm of endless possibilities in South America, particularly in Brazil.

Beloved blessed families from around the world, the integration of over 2,400 new members in such a brief period is a significant milestone for us in Brazil. The participation of more than 300 youths at the HJ Heaven and Earth CheonBo Training Center in Korea is equally awe-inspiring. In these historic times, guided by True Mother's wisdom, let us fully embrace, recognize and appreciate this blessed opportunity granted by the Heavenly Parent and True Parents. I call upon everyone to channel their utmost energy and commitment towards witnessing and revitalizing others in spirit and truth. Rest assured that your endeavors will be recognized by the Heavenly Parent and True Parents, paving the way for the successful establishment of Cheon Il Guk. In Brazil, we pledge to continue fostering a legacy of miracles, united in our efforts with True Mother. Your ongoing support and encouragement are deeply appreciated.

Thank you!

Significance and value of the Blessing

Cheon Seong Gyeong, Book 11, Chapter 3, Section 1

You need to know how amazing blessed families are. The Blessing is to perfect the individual, to perfect goodness, and to multiply children. It is to perfect people as individuals, perfect their relationships as husband and wife, and multiply goodness through their children. It is the core, fundamental requisite for all people.

If Adam and Eve had not fallen, they would have reached the focal point, the ideal intersection of vertical and horizontal love. Through their union, they would have attained total oneness and harmony. Besides instituting the love of the true ancestors of humanity, they would have been the starting point of true life and true lineage. Their wedding ceremony was to have been not just for themselves as human beings; it was also to have been the wedding ceremony for God. God would have entered their hearts, and the external God and internal God would have united as one. That was to have been the original wedding ceremony, having nothing to do with the Fall. What I am saying here is revolutionary in the world of religion.

What is the Blessing? If you consider man as the East and woman as the West, then the Blessing is the union of East and West at a central point on a horizontal plane. What is the power that unites them? It is love. Man and woman were created to unite as one through love. That is why, after they reach maturity, a man and a woman find their way to the place where they can attain union. That place is their central point. That central point is where God can vertically descend and dwell. When a man and a woman place God's love at their center, where His vertical line joins their horizontal line to form a 90-degree angle, they become one at the center of a 360-degree circle. If our first ancestors had become

one based on God's love, they would have become God's bodies. Who are Adam and Eve? They are the substantial bodies of God. That is why, in the biblical book of First Corinthians it is written, "Do you not know that you are God's temple...?" (1 Cor. 3:16) Our bodies are God's temples. If even fallen human beings can be His temples, then the original substantiation of God's duality, the unfallen Adam and Eve, would naturally have become the original temple, the dwelling place of God in the human world.

God has the dual characteristics of plus and minus. When God's dual characteristics are divided, the plus characteristic is manifested as a man, Adam, and the minus characteristic is manifested as a woman, Eve. When Adam and Eve unite together to embody God's oneness, their union is substantiated in their children. In this manner, the first, second and third generations are formed with God at their center. Within these three generations, problems arose in the second generation, that is, the generation of Adam and Eve. They failed to become one under God's love. If Adam and Eve had united in God's love, they would have established the bond by which God could have come to dwell with them. Then their children as well would have been connected to the standard of love, and formed their own relationship with God. This is called the Blessing.

The Blessing of the Unification Church is performed so that God's incorporeal life, love and ideal can be manifested in form. To put it another way, the Blessing is to connect us to God's life, love and ideal. That being the case, where does God rejoice? He rejoices at the place of the Blessing. When God rejoices, His life, love and ideal all have a livelier bounce. 

Let Us Fulfill the Duty of Filial Sons, Loyal Subjects, and Holy Children Towards our Heavenly Parent

True Mother's Message at Cheon Il Guk Pledge Service Celebrating the Holy Birth of the True Parents of Heaven, Earth, and Humankind and the 11th Anniversary of Cheon Il Guk Foundation Day held on 1.6 by the Heavenly Calendar in the 12th Year of Cheon Il Guk (February 15, 2024), Cheon Jeong Gung

Thank you.

It is through Heavenly Parent's tremendous love and protection that we have welcomed this day, and we offer our Heavenly Parent infinite gratitude and glory. Through this one day, may the environment for Heavenly Parent be expanded on earth, as is the wish and the object of devotion of all members of Unificationist community in the world.

Finally, after 6,000 years, the ideal life in the Kingdom of Heaven on earth that the Creator wished to see from the outset, and the circumstances that God dreamt of with True Parents and His children are being actualized through True Parents.

In this year of the Blue Dragon, as we take bold and strong steps centered on True Parents toward a heavenly unified Korea and heavenly unified world in attendance of Heavenly Parent on earth, may all blessed families, ambassadors for peace, and all the good and righteous people on earth listen to Heaven's voice, throw away everything that is unfilial in front of Heaven until now, and become people who fulfill their duties as filial children, patriots and holy sons and daughters toward Heavenly Parent on the path to a hope-filled future.

Therefore, it is my prayer that all members of the Family Federation within the Unificationist community will fulfill their responsibility to guide humanity toward becoming such people and that, in good health, they will advance toward the completion of the providence.

In a manner reminiscent of the True Parents' birthday celebration, Song Yong-cheon, President of FFWPU-International, adeptly took on the role of master of ceremonies for the morning's proceedings, which were exclusively attended and led by True Mother herself.

Highlights from the True Mother's Address

As we approach the monumental occasion of entering the Cheon Won Gung Cheon Il Sanctum, a year of preparation lies ahead. This period is pivotal for the day when the Heavenly Parent will reside on Earth, thanks to the endeavors of the True Parents. After 6,000 years marked by humanity's estrangement from God, it is incumbent upon you, leaders from across the globe, to meticulously prepare for this historic moment. This will ensure that the Heavenly Parent and the True Parents can acknowledge your efforts with heartfelt gratitude. The divine aspiration has always been to have the True Parents on Earth, allowing God to express His love for His children through them. Hence, the figure you should hold in highest esteem is none other than the first advent of the Only Begotten Daughter, the Mother of Peace, the Mother of the Universe. It is my earnest hope that as leaders, you will exert every possible effort and dedication to propagate this profound truth globally. Your endeavors will hasten the day when all can personally experience, resonate with, and embrace this truth. I pray fervently that each of you, as leaders and families, will vigorously pursue the restoration of our nation, the unification of a heavenly Korea, the unification of a heavenly world, and, unequivocally, the revival of Christianity.

Invocation and Commitment

During the assembly, Dr. Song Gwang-seok, President of FFWPU-Korea, consistently invoked the divine presence, seeking guidance to adhere to the True Mother’s directive of restoring Christianity. This is a crucial step in heralding the era of providence fulfillment. As we step into 2024, the Year of the Blue Dragon, the Cheonilguk leaders, in reverence to the True Mother, the Only Begotten Daughter, and the embodiment of the Holy Spirit, are charged with the mission to internalize and honor the spiritual stature and significance of the True Mother. This recognition, a first in 6,000 years, is essential for our collective victory and commitment to the forthcoming entry into the Cheon Won Gung Cheon II Sanctum.

Expressions of Honor and Gratitude

In a gesture of honor and profound gratitude, Ricardo de

Sena and Simao Feraboli, Presidents of UPF Central America, presented the True Mother with floral bouquets, symbolizing the collective appreciation of the community. This was followed by the presentation of the Resolution Letter to the Mother by the presidents of the global mission regions. They expressed their unwavering determination to triumph in the palace entry ceremony, marking the 13th year of Cheonilguk.

Solidarity and Dedication

The leaders gathered at the inaugural session of the Cheon Il Guk Leaders’ General Assembly voiced their deep gratitude and pledged their steadfast commitment to the True Parents. This was demonstrated in the three Eog Mansei, led by regional president Demian Dunkley, signifying a unified resolve and dedication towards the noble goals set forth by the assembly. 

Second Public Hearing on the Development of a Lecture Plan Teaching the Theology of True Parents for the Restoration of Christianity

On February 19th, an important gathering took place on the third floor of the Cheon Sung Wang Lim Palace. It was the Second Public Hearing on the Development of a Lecture Plan Teaching the Theology of True Parents for the Restoration of Christianity. This event marked a significant step in integrating deeper theological understanding within the Christian community.

Guided by True Mother's profound message from last December, the hearing focused on awakening Christianity from its slumber. True Mother had emphasized the need to uncover the essence of the Heavenly Parent and the True Parents, which have remained veiled in Christian history, along with unveiling the truths of the 2,000-year history of Christian providential history. The hearing aimed to achieve three key objectives: 1) To enlighten the Christian community with these revealed truths providence revealed by True Mother, thereby shortening the path to the completion of providence; 2) To educate blessed families and future leaders in the era of Cheon Il Guk, guiding them towards a path of absolute faith in unity with True Mother; and 3) To equip the 'Heavenly Top Guns', who are set to embark on international missions, with these teachings to aid in the restoration of Christianity.

Leaders and experts from Cheon Il Guk, including Robert Kittel, the Cheon Eui Won Chair of Heavenly Asia-Pacific, and 36 other key figures from Cheon Jeong Gung IHQ, the Family Federation for World Peace and Unification

(FFWPU)-Korea, Regional Headquarters, the Universal Peace Federation (UPF), various providential organizations, and theological academicians, demonstrated a robust enthusiasm for the development of this critical lecture plan. Their collective effort aimed at realigning Christianity with the theology of True Parents.

The hearing was meticulously structured, beginning with an opening declaration and a bow of respect. This was followed by a report prayer and opening remarks, setting a reflective tone for the event. A series of presentations then unfolded, each accompanied by a question and answer session, fostering engaging debates and in-depth discussions. The event was further enriched by insightful messages from Song Yong Cheon of FFWPU-International and Michael Balcomb, the Regional President of Heavenly Europe. The hearing concluded with a closing declaration, encapsulating the profound deliberations and commitments.

This event served not only as a platform for theological exchange but also as a beacon for the future direction of religious understanding within the Christian community.

Ceremony to Inherit Special Death Valley Holy Salt for a Heavenly Unified Korea and a Heavenly Unified World

Bequeathal and Explanation of Purpose of the Special Holy Salt from Death Valley

T rue Mother visited the Death Valley holy ground in the United States on January 13, 2024. There, she saw salt that did not deteriorate and remained pure even in the hottest and lowest place in the world. Mother said that even in a sinful world we should become “A righteous person like salt, who respects heaven and lives a life that can serve as an example.” True Mother earnestly hopes that all humankind will become children of Heavenly Parent who are as unchanging as salt. So True Mother blessed the salt collected from the Death Valley holy ground and instructed that it be combined with Cheon Il Guk Holy Salt to make a Special Holy Salt, and gave her blessing for it to be distributed widely to leaders, blessed families, and members around the world from True Parents’ Birthday onward.

Meaning of the Special Holy Salt from Death Valley

The Special Holy Salt from Death Valley, bestowed by True Mother, was created to build on the existing Cheon Il Guk Holy Salt tradition and be used to find righteous people whom Heaven has prepared and who are like salt, and bless them and bring them to become the people of Cheon Il Guk. In a place that can be likened to hell on earth, the hottest and lowest place in the world, True Mother’s seeking out the salt that can save humanity is to find righteous people like the salt prepared by heaven to save the fallen world that is heading toward destruction, and to lead it once again to the path of hope. This is Heaven’s providence that contains the earnest love of Heavenly Parent, True Parents, and especially True Mother.

The salt from Death Valley, usually obscured by sand and dust, reveals its purity when dissolved in rainwater, leaving behind clean salt as the water evaporates. On her visit, True Mother witnessed this salt in its purest form, reminiscent of white snow, which was then passed down

as Special Holy Salt.

Following True Parents’ special instructions, a significant ceremony, the ‘Ceremony to Inherit Special Death Valley Holy Salt for a Heavenly Unified Korea and a Heavenly Unified World,’ was conducted on February 2, 2024, at Cheon Shim Won at the HJ Heaven and Earth Cheonbo Training Center. Everything Eventually Returns to the Right Path

(“Sapilgwijeong” 사필귀정/邪必歸正)

Jung Sung-min,
President Pastor of Cheonwon Grand Church
February 11, 2024

Dear Cheonwon Palace, Cheonwon Great Church family. The mighty 12th year of Cheon Il Guk has dawned! My sincere thanks to all of you for attending today's service or joining us by video. I think Heavenly Parent will also be happy and proud to see you. On this first day of the new year, I would like to share grace with you, my true family, under the title "Justice Shall Prevail."

Let's start by reading True Mother's words she delivered on January 1, 2024:

"2024 is the Gapjin Year of the Sexagenary cycle, and the 12th year of Cheon Il Guk is the Year of the Blue Dragon, which blows away all previous negative energy. In the upcoming 13th year of completion, the entrance ceremony of Cheonwon Palace Cheonil Sanctum will be held. There should be no shadows on all surfaces as it is prepared and finished. This year is very important, just as the heavens blessed us with white snow to help us dispel evil spirits." So, in a state where everything is perfectly cleared up and orderly, we must march forward to welcome the hopeful 12th year of Cheon Il Guk. Aju!"

— True Mother gave us such precious words

Today, as the 12th year of Cheon Il Guk begins anew, I would like to talk about how to start the 12th year of Cheon Il Guk so that we can make a good beginning.

Let's take a quick look at one thing first. There are many times when we liken our lives to a movie. So, let's draw it in our heads together. Let's say there is a movie that turns the wonderful lives of our family members into a work of art.

If each individual is positioned as the main character of the movie, it seems like there is also a director who is in charge of the movie. Who could this director be? Yes, I think we can say that we are the Heavenly Parent, the omniscient and omnipotent director who knows how to do everything, and the True Parents who have come in reality. A director who is more capable, more perfect, and more wonderful than the famous Steven Spielberg or James Cameron is making a movie with us as the main characters.

Now, if there is a director like that, there must be people who help and assist the director, right? There will be several staff members, including a lighting director, audio

director, and camera director. So who can explain who these staff are? Yes, I think it can be explained that they are heavenly angels and absolute good spirits. And the ancestors of our family members will also be included here. These wonderful staff members are assisting the director and doing their best together with him to make this movie with us as the main characters great. It is working.

Now, all preparations for filming the movie are complete. The director and staff are also perfectly prepared. Now we, the main characters, are about to start acting, but I feel like something is missing. What is it?

Ah, the script is missing—a script that details the roles the main characters must play—a very thick but clearly written script. First of all I'll go through this script page by page and see what all it contains.

Looking at each page, I can see that this script contains the director's intention. And this script conveys the director's dream and purpose. Not only the director but also all the staff prepared everything according to this script. The location has also been prepared according to the script. Props, cameras, lighting, all of these have been prepared according to the script. And the roles the main characters should play have been laid out in great detail.

What is this script? [Yes, that's right! Words!]

In this movie, which is planned and directed by Heavenly Parent and True Parents, everything is prepared and executed according to this script and words. So, what do we, the main characters, have to look at and act out? The script, I mean. If we look at these words and act according to them and put them into practice, we, the protagonists, may be a little lacking and inferior, but because we have Director Choi, the best staff, and the best script, we can make a great movie. And the director has also prepared with that in mind. That's it.

Let's look at a passage from the Bible about this.

[Matthew 4:4 "Jesus answered and said, Man does not live by bread alone. It is said that we will live by every word that proceeds from the mouth of God."]

Well, man does not live by bread alone, but by what?

Jesus, the only begotten Son, is telling us strongly that we must live through the Word and centering on the Word!

True Parents also gave a short but powerful speech. (021-176) "Take the word as your life. You just have to absolutely obey the Word." He strongly and seriously mentioned the importance of the Word.

However, True Parents went further and enacted this in the Cheon Il Guk Constitution. If you look at [Cheon Il Guk Constitution, Chapter 2, Section 2, Article 27: Obligations of Blessed Families]

1. Blessed families must inherit the True Parents' tradition and live a life of devotion to continue it.
2. Blessed families must have exemplary character and live a life of absolute faith, absolute love, and absolute obedience according to the words of True Parents.
3. Blessed families must respect and protect the True Parents' family.

This is clearly stated in the Cheon Il Guk Constitution. These are all important items, but they are telling us such a powerful message that they want us to live according to their

words and script, to the extent that they enacted it into law, saying, “We must live a life of absolute faith, absolute love, and absolute obedience to the words of True Parents.”

We can see how important this script is in the movie. True Parents are telling us over and over again how much influence these words have in our lives and how precious and indispensable they are.

Our beloved family, what about this movie in which we star as the main characters? It’s already planned from start to finish. We have the very best director, all staff are centered around the director, and everything is already prepared and planned according to the script.

As the main characters in our own movies, we don’t need to look at anything else. All you have to do is read this script carefully. If you look at this script and know exactly what He wants, what He intends, and what He wants to express, and just follow that, the movie can definitely be a huge hit.

Well, then, now we, the main characters, have to unfold the script and act. What is written in the script? What is written? Are you curious? From that perspective, let’s look again at the words we read earlier.

I have organized True Mother’s precious words into three parts.

1. The 12th year of Cheon Il Guk is the year of the Blue Dragon, blowing away all the negative energy of the past.
2. However, in the 13th year of Cheon Il Guk, there must be no shadows on any side at the Cheonwon Palace entrance ceremony. Everything must be meticulously organized.

I think I can summarize what I said. To sum up, this is the 12th year of Cheon Il Guk, and this year is the year in which everything must be completely organized. I believe that must be our clear and unanimous conclusion.

So when I read these words of True Mother, one idiom came to mind. The adage goes “Justice will prevail.” The title of today’s talk is “Sapilgwijeong—justice ultimately prevails.” Interpreting “Sapilgwijeong”, “No matter what happens, in the end, it returns to what is right according to the right principles.” This is consistent with True Mother’s words of trying to put all the wrong things in order.

Yes, but I would like to change the first character here, ‘Il Sa-i-sa’, to ‘Evil Sa-il’. I’m replacing it with the character representing “evil energy.” So, if we interpret the meaning anew, it means that whatever is evil will definitely return to what is right. I think this is the true meaning of the saying, conveying True Mother’s earnest wish to straighten out all the things that have become wrong and deviated through the fall of mankind into right ones and reconnect them to Heavenly Parent.

So what kind of things has True Mother cleared up and organized to lead the providence in this spirit of returning to life?

1. First, God has been defined as our Heavenly Parent.
2. The 615 volumes of True Father’s sermons have been organized and grouped into the three major scriptures.
3. Through the CheonBo Families, God is leading the providence by organizing the past, present, and future of the CheonBo Families.

4. Most recently, Mother's precious intention is to establish conditions for the spirit world to work, clear up the central spirits, and raise up the fortune for unification of North and South Korea by Special Liberation of the central spirits concerning North Korean compatriots.
5. The Death Valley Salt that True Mother will personally consecrate and bequeath to us. As Mother prepared the Holy Salt, she also gave us precious words to discern, separate, clear up, and organize through this Holy Salt, to expand the environmental sphere in which Heavenly Parent can work, and to find the righteous people. True Mother is carrying out the providence of returning home by clearing up, reorganizing, and purging the wrong things in various areas and on all fronts.
6. Furthermore, True Mother also reorganized True Parents. In order to enter the Cheonil Sanctum and CheonWon Gung, they had to become pure, immaculate True Parents without the slightest stain or blemish, so True Father and True Mother stand as the Second Coming Messiah and the First Coming True Mother. By declaring to us that she is God's Only Begotten Daughter, Mother clearly revealed the secrets of history and the truth of providence, thereby establishing the eternal order for True Parents. True Mother has proceeded in this way for the completion of the providence: Even in the middle of the desert surrounded by a sandstorm, she managed to find a small needle. With such an earnest heart, she's been administering the providence. She untangled the tangled threads one by one, organizing them and putting them all in order. And she undid the first button that was sewn incorrectly. As she attaches the buttons one by one, she is preparing a dragon cloth to present to Heavenly Parent.
7. Thankfully by the way, Mother did not forget us either. So that we can move to a place of pure white, pure blood, and pure gold—she gave us the precious gift of Cheon Shim Won. Let's read True Mother's words (2017.11.4):

[More than anything else, I hoped that the blessed families who should live in True Parents' environmental sphere would be healthy and become dutiful sons and daughters, loyal subjects to True Parents. Heaven granted my earnest wish, and the work of the Holy Spirit began centering on Cheongpyeong. The new era and new history since Foundation Day is moving Cheongpyeong as the work of the True Mother, the Only Begotten Daughter, and the Substantial Holy Spirit. You must come here and receive the work of the Holy Spirit to make yourself, along with your three generations—past, present, and future—healthy citizens of Cheon Il Guk, without stain or blemish. ... Since your environment is within the realm of corruption, you must come here often to keep your mind and body healthy.] Aju!

True Mother said, "I am the only one left." It must be daunting to lead the providence alone. Guiding the heavenly providence, she lives each day as if it were a thousand years

What can we say? Please extend a hand to those who are lacking or falling short, and lift them up.

Through the miraculous and precious place called Cheon Shim Won, Mother has given us a great blessing to become organized and reborn with a flawless and healthy appearance! Thank you, Mother, for giving us this precious blessing! Would you like to give a round of applause in gratitude to True Mother? (clap) Thank you...

In addition to what I mentioned, True Mother said that she conducts providences that we do not know about and would not dare to imagine, in order to drive out wrong things, organize them, and set them in order. The providence of returning home is being carried out.

Dear family members, True Mother on Jan. 1, 2024 described what scenarios will unfold in this 12th year of Cheon Il Guk. And she gave us the script. So what should we do as the main characters? You should read the script first. Examining closely, I will research how to carry out my role, compose a picture in my head, and put it into practice. You have to follow the script.

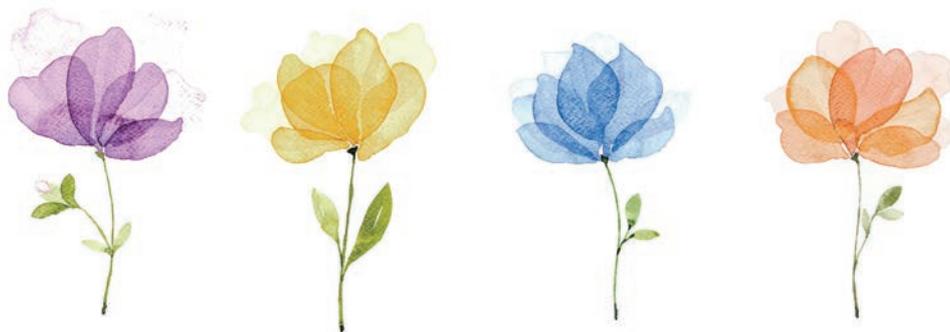

If we move ahead and put her words into practice like that, then what scenarios can we expect in the year 2025? It is the holy year when the Entrance Ceremony of the Cheonwon Palace Cheonil Sanctum will be held and True Parents will assume the role of the God of Day.

And next year is the 80th Anniversary of Liberation Day, the glorious year when Vision 2025 is achieved, national restoration is accomplished, Heavenly Parent's kingdom appears on earth, and true liberation is realized at last. When we celebrate the 13th year of Cheon Il Guk, the number of completion of creation, it will be a very meaningful year in which the original world of creation called Cheon Il Guk will be completed, starting with Foundation Day.

That's why True Mother says this year 2024 is so important. In order to triumphantly welcome this precious year that will never come again, in this 12th year of Cheon Il Guk we will remove all blemishes and stains from all aspects of our life and our work. So I'm saying that we must clear up and organize our space so that there are no shadows. In other words, we completely drive out all evil energy. What I'm saying is that it will be the year of Sapilgwijeong—when "Justice shall prevail!"

Dear family members, I sincerely hope that I could touch your heart; that through our time together today, you can understand just a little bit what True Mother's intentions are for the 12th year of Cheon Il Guk, a little bit about what we should do as protagonists.

Let us stand with our Heavenly Parent and True Parents in all that True Mother leads, guides, and provides. I pledge to actively participate and produce results, fulfilling my responsibilities as a great protagonist. In this 12th year of Cheon Il Guk, we bear fruit with the attitude of restoring our own lives. Let us bring great victory for the 13th year of Cheon Il Guk. Many new members will join our Cheonwon Great Church family. All our family members will be reborn as wonderful protagonists, and all together you'll see a great victory! Now let us all pray together.
