Human history has unfolded over centuries, but the last 50 years alongside the True Parents are completely different in terms of their value and quality. In particular, the golden era that True Mother emphasizes is a special time in which God is working directly. We must not forget that we are living in such a time. The central figures of history lived through their epochs and moments with total dedication. Noah, Abraham, and the people of Israel did the same. However, what was the result? Although they offered their devotion to God, they lost the decisive moment. All time is important,

but if we fail to follow God's will at the moment He calls us and when He has prepared a path for us, we may lose everything we have accomplished in the past as well as our future.

At the beginning of 2025, True Mother gave us the New Year's motto: "In the 13th year of Cheon Il Guk, when we attend the Creator Heavenly Parent

substantially, let us, the blessed families around the world, become true sons and daughters of Cheon Il Guk who fulfill our responsibility as the chosen people in unity with True Parents!" We are living in a time when God works directly, and our mission is to respond to God's and True Mother's call by fulfilling our responsibility. This is where it is decided whether our past and future will be lost or glorious.

The Oceania region consists of Australia as the father nation, New Zealand as the mother nation, and 14 Pacific island nations. In 9 of these 14 countries, there are FFWPU presidents and members, and in the others, we maintain close relationships with key leaders. Australia and New Zealand, as pioneering countries, have been working to show their vision to society, with many active members alongside their second- and third-generation children. Especially in these countries, where family culture is disintegrating and individualistic culture has a strong influence, we are promoting the vision of a God-centered community with three generations working together.

Through missionary activities, young people have become connected, and Christian pastors have also begun to unite through PCLC (Pacific Christian Leadership Conference). Australia and New Zealand, as parents, lead the region as a whole, while other islands also conduct activities with their own characteristics.

The Solomon Islands are central to these activities, where many young members have close connections with the prime minister and members of parliament. Additionally, they have established and operate the "New Hope Academy," a primary and secondary school. In this school, principles centered on God, True Parents, and sacred teachings are taught, and the local community knows it is a school established by the Unification Church.

Due to the quality of education, even members of parliament send their children there. Recently, True Mother has supported the expansion of classrooms, creating hope for this educational institution to become an even greater center for God's providence.

When the True Parents were in Oceania, they gave us the mottos: "The unified world begins from Oceania" and "The liberation of all humanity starts from our own strength." These mottos reflect True Parents' desire to build a unified Korea and a unified world starting from this region. Many islands and nations live with Christian thoughts amid diverse races and cultures. Despite being small countries, they continue to prosper on the world stage as dignified nations. Many national leaders think positively about True Parents and are working to advance an even greater providence.

The blessed families of the world are the chosen people. Along with this comes responsibility. True Mother has especially emphasized this point. God and True Parents believe in us, their children, and have placed their hopes in us. As children of God, we will fulfill our responsibility to achieve these hopes.

We are now living in the golden era of great changes, in God's time. Let us unite completely with the Only Begotten Daughter, True Mother, and offer our victory. Let us know this time and become victorious children of God.

Heavenly Parent the Creator

Heaven and earth did not simply originate from matter, nor did they emerge spontaneously or by chance. God, the Creator, exists. He is the first cause of the cosmos. He is absolute, eternal, unchanging and good. He made all things in the universe according to his purpose of creation, his basic design. God is the origin of heart and emotion, and his purpose is to create joy. However, one cannot feel joy alone. In order for a subject partner to feel joy, an object partner is absolutely necessary. The greatest joy comes from the exchange of love between subject and object

partners.

Heaven and earth originated from the Will of the One. Because God, our Heavenly Parent, exists, the created world came into existence. God, the Parent of heaven and earth, is the central Being. That is why God is one with all beings of this world, and why God and I are one, not two. God desires, on one hand, to come down to earth from above along a vertical line, in order to stand at the center. On the other hand, he desires to connect everything on the horizontal plane with that center.

Adam and Eve are God's body.

They are God's visible body and they are in the position of the visible God. God is the originator of energy; he cannot be seen, even in the spirit world. He has no form. Hence, in order to guide and govern the physical world, he has to assume an external, physical form. If, instead of falling, Adam and Eve had reached perfection while living on earth then gone on to the heavenly world, they would have become the visible form of God. The invisible God and visible Adam and Eve would have been one. Then, since Adam and Eve's laughter would have been God's laughter, it would have been

the laughter of heaven and earth. God created this world so that he, who is incorporeal, could emerge on earth in substance. In other words, this world was created so that the incorporeal God could emerge as the substantial God.

God is the womb of human beings and the nucleus of all things in the universe. Then why did God, the nucleus of all things, have to create the heavens and the earth? It is because if a nucleus exists alone, it will perish or disintegrate. Consider electricity. No matter how perfect a positive charge is, without a negative charge it will disappear. There are no exceptions to this. If a plus wants to survive, it has to align with the principle that sustains its life. Therefore, through the plan of creation, there will emerge a perfect minus. It is because existence depends upon the interaction between the two.

God, who made all things of creation in heaven and on earth, established his perfect substantial object partners in the external world to reflect his feelings, the inner world of his mind. He did this so that he could fully interact with them. He created human beings as object partners who would take responsibility for this, endowing them with a foundation that would allow them to engage in perfect giving and receiving. That is why, of all his creation, God loves human beings the most, and why they appreciate God the most. They respect God. Therefore, they go in search of God and God comes in search of them.

What is Creation?

What comes first, existence or life? Philosophy places the question of existence first. It does not deal with life. Then from where does life come? Life does not come from itself; it comes from parents' love. God governs the world of life and the world of love. In fact, life precedes existence, but philosophy deals only with questions that come after existence. It is life that moves all existing things. Then what is the cause that moves life? Love moves life. Because life comes from love, the natural way of life is to seek relationships of love and to attain the outcomes of love. This is the heart that lies behind the creation of heaven and earth.

When God began the creation, he had his Will, he had an idea, and he had a master plan. Thus, God's original Will went along with a plan to create human beings, and based on that plan he built a world correlative to us. That is why, despite the human Fall, we who live in the realm of God's providence of salvation in this day and age have to stand at the center of his Will, that is, within the realm of his Will and plan. The time has come. That is why God is preparing the conditions by which we can enter the realm of his

Will and plan. Over the course of history, numerous religions have emerged with the purpose of pioneering the environment, setting the conditions so that we can enter the realm of his plan.

In creating his partners, the true God completely invested himself to fashion them into the most valuable, ideal and perfect form. This means that once he created Adam and Eve, God lived for their sake, not his own. God moved from the time of living for his own sake to the time of living for the sake of his partners. An ideal being does not live for his or her own sake. An ideal being lives for the sake of others, for the sake of the object partner. This is the core principle of the universe.

In order to create all things, God had to pour out his very essence. That is, he invested a great deal of energy. This could have depleted his energy and resulted in God suffering a loss. Yet he created the world with love, to be his object partner, and he devoted himself to fulfilling this purpose. His investment was not to bear fruit in himself but rather in his partner. Since God created with love, even though he fully invested himself, he did not feel diminished. Rather, he felt satisfied. This became a principle, and this essence of parental love became the tradition. God's total self-investment meant that he was not conscious of himself as he worked. He was so immersed in pursuing the purpose of his partner that he completely forgot himself. In the end, God wants to live for the sake of the human beings whom he created. This is the basic principle of creation.

When God created the heavens and the earth, He first made all things and then He created human beings as his object partners. The dynamic of giving and receiving is a basic law, so until you give everything, nothing will return. This is a principle. A husband has to love his wife completely before she will say, "I completely love my husband." Only when she has received his complete love will she begin to give back completely. This is a principle of heaven and earth. Thus, only when you receive completely from your subject partner do you reciprocate completely. If you were to reciprocate before you received completely, what you returned would not be perfect and complete. This is give-and-receive action based on love; it is a law of the universe based on the Principle. 

These passages are excerpted and compiled from Chapter 3, Section 1 of Cheon Il Guk Scripture Cheon Seong Gyeong.

The Responsibility of the Chosen People United with the True Parents

“In the 13th year of Cheon Il Guk, when we attend the Creator Heavenly Parent substantially, let us, the blessed families around the world, become true sons and daughters of Cheon Il Guk who fulfill our responsibility as the chosen people in unity with True Parents!”

In the 13th year of Cheon Il Guk, when we attend the Creator Heavenly Parent substantially, let us, the blessed families around the world, become true sons and daughters of Cheon Il Guk who fulfill our responsibility as the chosen people in unity with True Parents!

This is the New Year's motto that, starting from today with the Year of the blue Snake, will be passed down for generations in Cheon Il Guk.

All blessed families throughout the world and everyone gathered here are happy!

As we enter the Year of the blue Snake, we know the pain from 120 years ago [Note: Mother is referring to 1905, in which the treaty of Eulsa made Korea a protectorate of Japan; 1905 was also a year of the blue snake]. In the Bible, a serpent symbolized Satan. However, the snake is also called a wise animal. After 6,000 years of Heaven's providence and of human history, all blessed families of the Unification movement have received, through True Parents, Heaven's magnificent grace of Cheon Il Guk where we can

attend Heavenly Parent in substantial ways on earth. We must be grateful. As blessed families, we must fulfill our responsibility.

Therefore, we must teach, beginning with this nation's citizens and politicians, that they are the chosen people. In true democracy, where we attend Heavenly Parent and all nations become sibling nations in front of Heavenly Parent as one family of humankind, can there be fighting or not? Until now, due to the Fall there have been wars, hostility, and religious conflict;

history has not seen a single day of peace.

Yet we are entering the 13th year since the beginning of a new history through the victorious True Parents. True Parents' responsibility is to fulfill Heavenly Parent's dream on earth, the ideal of creation and kingdom of heaven on earth. True Parents have given birth to many blessed families worldwide. Through their 2nd and 3rd generations—Pure Water youth who are spread throughout the world, like drops of water joining to form rivers that flow to the sea—our future will be gloriously bright. I pray this day may become one of grace, gratitude and happiness that Heavenly Parent can joyfully receive through your sincere devotions (jeongseong) and practice.

True Parents' Message at the Christmas Special Luncheon

Merry Christmas!

I am here today to liberate Jesus.

After creating all things throughout heaven and earth, including the mineral, plant and animal kingdoms, with everything in pairs in His image, Our Creator, finally created a man and a woman, who were meant to become the first ancestors of humankind. To this man and woman, Heavenly Parent gave a growth period through which they were to reach perfection by their own efforts.

However, as the words of the Bible reveal, Adam and Eve failed to fulfill this and fell, which led to a world filled with war and conflict that has not seen a single day of peace in 6,000 years of history.

The Creator is omniscient and omnipotent, unchanging from beginning to end. Having initiated the process of creation, Heaven must see it through to completion. That is why through intense effort Heaven selected the people of Israel as the chosen people and cultivated them over a period of 4,000 years. How difficult it must have been, that it took 4,000 years! Ministers who know the Bible well understand why it took so long.

Jesus Christ, conceived by the Holy Spirit after 4,000 years.... Why did he have to be born in a stable? Yet three wise men from the East came following a star and paid their respects.

But Mary, who gave birth to Jesus.... I wonder if she celebrated Jesus' birthday over the 30 years of his life? Surely they knew how to write, and yet why is there no record? After preparing for 30 years, Jesus embarked on his public course, yet it was cut short after just three years, and he was driven to the cross.

There were two thieves on crosses next to Jesus. The thief on the left mocked Jesus. But the thief on the right said, "This man is innocent." What did Jesus say then? "You will be with me in Paradise." He said paradise rather than heaven. That's why Jesus said, "I will come again."

Christianity began when the Apostles, who were waiting for Jesus' promised return, were resurrected through the Holy Spirit. What has Christianity been doing over these two thousand years? What devotions have they offered for the sake of Jesus?

Jesus said that when he returned, he would hold the Marriage Supper of the Lamb. This means that, since a man and a woman came into being through God's principles of creation, he would see the realization of this Principle. Then, if Jesus the Only Begotten Son was born after 4,000 years, what should have been the focus of Mary's life? She should have created the environment in which Jesus could become humanity's savior and True Parent. However, Mary was unable to fulfill this responsibility.

About Mary and about how Christmas came about are things that were decided based on a human viewpoint. There is no official record of Jesus birth. Do you think Mary fulfilled her responsibility? What effort and devotion did Mary offer for Jesus' sake?

As Christians do not know Jesus' essence, they call Mary the "Holy Mother." Christian ministers here today need to know this. Now, in the present time this must change. Why? Because it is the 12th year of Cheon Il Guk, and True Parents have been born on earth and created Cheon Won Gung and everything surrounding it in order to fulfill Heavenly Parent's dream.

Christianity must change. Korean Christianity, which should be leading the way toward Cheon Il Guk and advancing with me toward that nation and world, still hasn't repented or fulfilled its responsibility. Their ignorance about Jesus makes him weep. Please don't make Jesus suffer anymore. We must all change. I am telling all of you the truth of the providence so that today can be the day of Jesus' liberation.

The song, titled “You Won’t Walk Alone,” was a tribute dedicated to True Mother, who smiled as she watched her proud and wonderful sons and daughters walking alongside her on the path of God’s Will.

Emphasizing the new year’s motto, Mother added: “Now is the era in which we live substantially serving God on Earth together with the chosen people

composed of blessed families who have united with True Parents. Thanks to the families blessed by True Parents, the Creator has been revealed, and the essence of Jesus has been manifested. Therefore, it is time to correct the errors of the past.”

“The 13th year of Cheon Il Guk, in which we live in the 21st century serving God on Earth together with True Parents, should be the happiest year, full of hope and oriented toward an eternal future. God’s dream is to dwell together with His true children.”
